The European Commission-Education and Training is seeking proposals from eligible organizations to promote development in the field of the integration of children and young people with migration background in school education.

The network should serve evidence-informed policy-making and promote collaboration amongst relevant stakeholders at different levels, including other networks and projects funded through EU programmes and /or having an European cooperation dimension;

Analyse and co-create knowledge on the main challenges and policy approaches for ensuring inclusive education environments for children and young people with a migrant background, allowing them to succeed both in school and life and achieve their potential;

Identify, share and promote good policy practice and stimulate innovation in policy development and policy experimentation at different governance levels. There should be specific focus on the involvement of national, regional and local stakeholders;

Contribute to content development for European Commission's dissemination tools, for example the School Education Gateway, an online platform for school education supported by the European Commission and especially the Toolkit for Schools. Contribute to follow-up initiatives in implementing the Migration Agenda.

Disseminate results and recommendations within and beyond the network, and inform EU-level debate, including co-operation under Education and Training.
